

MOHAMMAD ALI EBRAHIMI

Java Backend Developer

Isfahan / Tehran, Iran | +98 914-030-8507 | moali.develop@gmail.com | github.com/moali1010

PROFESSIONAL SUMMARY

Java Backend Developer experienced in building RESTful services and persistence layers with Spring Boot, Spring MVC, Spring Data JPA, and Hibernate. Applies object-oriented programming principles and design patterns (Repository, Builder, Factory, Decorator, Singleton) to write structured, maintainable Java code. Working knowledge of relational (PostgreSQL, MySQL, SQLite) and NoSQL (MongoDB, Redis) databases, unit testing with JUnit and Mockito, and backend development on enterprise platforms including Liferay and WSO2.

TECHNICAL SKILLS

Programming: Java — Core Java, OOP, Collections, Generics, Stream API, Lambda Expressions

Backend & Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Java EE

ORM & Persistence: JPA, Hibernate

Databases: PostgreSQL, MySQL, SQLite (Relational); MongoDB, Redis (NoSQL)

API & Data Formats: RESTful APIs, JSON (Gson)

Security: Spring Security

Architecture & Design Patterns: Object-Oriented Design; Repository, Builder, Factory, Decorator, and Singleton patterns

Testing: JUnit, Mockito

Build & Version Control: Maven, Git

Servers & Validation: Tomcat, Hibernate Validator

Frontend (Supplementary): HTML, CSS, Bootstrap

PROFESSIONAL EXPERIENCE

Backend Developer

Saraco — [eccim.ir](#)

- Developed and maintained backend components using Java and Spring Boot.
- Implemented and maintained RESTful backend services using Spring-based technologies.
- Worked with Spring Data JPA / Hibernate for persistence and database interaction.
- Applied object-oriented programming principles and design patterns to develop structured and maintainable backend code.

SepehrAfzar Iranian — [sain.ir](#)

- Backend development on enterprise platforms including Liferay, a Java-based enterprise portal framework, and WSO2, a Java-based API management and integration middleware suite.

Informatic Expert

Goharbafan — [goharbafan.com](#)

- Served as an Informatics/IT expert supporting the organization's technology operations.

CERTIFICATIONS & TRAINING

- Maktab Sharif — Java/Spring Development (400+ hours)
- Nikamooz — Java SE Fundamentals (49 hours)
- Quera — Fundamentals of Java, Advanced Java, NoSQL Database, Version Control with Git

EDUCATION

Bachelor's Degree, Electrical Engineering

Ardakan University — [ardakan.ac.ir](#)

LANGUAGES

English — Limited Working Proficiency
